

# RightCare Clinic

## Predictable Self-Pay Pricing

At the RightCare Clinic, we believe that better health starts with the right care. We understand that accessing quality healthcare can be challenging—whether you're uninsured, managing a high-deductible plan, or simply prefer knowing what you'll pay.

Our predictable self-pay pricing is available to patients who choose to pay out-of-pocket rather than billing insurance. This transparent approach allows you to know your costs upfront.

Our goal is to provide you with exceptional care that is timely, accessible, and affordable. We are ready to assist you on your journey to better health.

Upon arrival, a \$225 payment is due. During your visit, our board-certified Emergency Medicine physician will evaluate your needs and confirm which care tier your treatment falls under. At checkout, any remaining balance will be collected.

---

### Tier A | Simple Care Services ..... \$225

**Visit Reasons:**

**Simple Care Services**

*Examples: Cough, Congestion, Sore Throat, Fever, Rash, Skin infections, Ear Pain, Minor Dental Complaints.*
